@RealCoolJo stopped supporting this mod and turned this over to me. Original thread is here: https://forum.kerbalspaceprogram.com/index.php?/topic/142231-ksp-131-who-am-i-identify-your-kerbals-in-iva-104-2017-10-11

Everytime you switch Kerbals in IVA, you must ask yourself, Who Am I? Now you know

First post!

This seems very useful

Thank you for this! Does the text go away after a bit after switching, or does it stay up forever?

It's a little quality of life mod, that I'm using all the time too.

Today I learned that this mod introduces an Alt+B shortcut for use in IVA view. It brings up the Kerbal transfer dialog. Totally brilliant once you think about it for a sec.

If someone wants to adopt this or my other mods, contact me. I don't have time for modding anymore due to my busy work and life schedule.
